

CSCI910/410 Autumn 2020
Assignment 1

Due by: Sunday 5th July, 22:00

Marks: 15

1. Objective:

The purpose of this assignment is:

The objective of this assignment is to discover all potential requirements of the project, “The Teleservices and Remote Medical Care System (TRMCS)”, and write these requirements by using “IEEE Template Requirement Documents”, introduced in Lecture 1. Based on the description of TRMCS, you need to discover potential functional requirements, non-functional requirements, and global constraints of TRMCS. Even you can invent requirements if they are reasonable for developing TRMCS.

2. Problem Description:

TRMCS is a Case Study at Tenth International Workshop on Software Specification and Design (IWSSD-10). Information given to TRMCS is on the e-learning site of this subject, under the folder of Assignment.

3. Submission Method:

Students must submit their final work of this assignment by a pdf file through the Moodle site. TurnItin will be used to check the similarity.
